

Frequently Asked Questions by KTC Dealers about Kubota Generators

How do I find out who is my Kubota generator distributor?

Visit the following page for a complete list and contact information.

<https://www.kubotaengine.com/find-sales-service/find-a-distributor/>

What generator models are offered?

Kubota Engine America offers several outputs, 7kW, 11kW, & 14kW. There are three versions of each Lowboy II model and one LowboyPro:

GL7000-USA & GL11000-USA - 7kW & 11kW with receptacles

GL7000-TM & GL11000-TM - 7kW & 11kW with terminals

GL7000-CAN & GL11000-CAN - 7kW & 11kW CSA certified for Canadian market

GL14000-USA – Combo Unit (receptacles and terminals)

Are the generators UL certified?

No. The Lowboy II and LowboyPro generators are not a UL certified product.

Are the generators CSA certified for the Canadian market?

Kubota Engine America offers a generator model that is CSA certified in both the 7kW and 11kW. GL7000-CAN & GL11000-CAN - 7kW & 11kW CSA certified for Canadian market. The LowboyPro GL14000 is NOT CSA certified.

Who should I contact with any questions regarding the generators?

You should reach out to your local Kubota generator distributor for any inquiries about generator pricing, availability, technical questions or any other related generator topics.

You can find the distributor contact list in the following page:

<https://www.kubotaengine.com/find-sales-service/find-a-distributor/>

If you are not sure exactly who your authorized Kubota generator distributor is you can find them based on your zip code:
